

PUSH MOWERS EXTRAORDINAIRE!

The last push mowing for the season at Optimist Park happened Monday, September 30, 2024.

Push mowing is necessary to mow those places that the tractor and zero-turn mowers can't do ... such as the steep Brummett Field banks, Brummett Field dugouts, Batting Cage #1, Pitching Areas #1 & #2, the Shed flower box area ... and many other areas!

The push mowing happened during nice weather and not so nice (hot) weather. The grass was sometimes short, sometimes long, sometimes dry, sometimes wet, and sometimes some combination of these characteristics.

So, who are our Push Mowers doing the push mowing. We have **Steve Boeckman**, **Brad Horchem**, and **Steve Springer** to **THANKS!**

As I understand, this push mowing trio has signed up for another year in 2025. Please thank them for their dedication this season ... and considering joining them in 2025.
