

Tree Lot Setup Unpack, Move, and Tag

Wednesday, November 22 at 10:00

We will move approximately 400 trees from our storage area to the display/sales stanchions. First, in the storage area, the protective netting will be removed. Next, loads of trees will be placed on a flatbed trailer and moved to the display area. Then, each load will be moved to an appropriate stanchion, and stood up. Finally, price tags will be attached to each tree. Lunch will be provided!!
